

Oklahoma Comprehensive Water Plan - Public Water Supply Planning Guide
 Table 3-6: Fire Flow Requirements

System Name		
Insurance Services Office (ISO) Fire Suppression Rating ¹		
If the system currently participates in ISO's Public Protection Classification (PPC) (or similar) program, provide information below.		
Fire suppression rating (ISO):	or rating by similar program:	Is documentation attached?
Describe any known plans to increase or decrease classification.		

¹ The Fire Suppression Rating Schedule (FSRS) is the manual ISO uses in reviewing the fire-fighting capabilities of individual system service areas or communities. The schedule measures the major elements of a community's fire-suppression system and develops a numerical grading called a Public Protection Classification (PPC™). Class 1 represents the best public protection, and Class 10 indicates no recognized protection.
